

## **Covid 19 & Company Update**

We'd like to ensure all UK based production & manufacturing services that we have your supply chain covered and will be working hard to ensure as little disruption to business as possible to the supply of refractory products and support services, whilst following government guidelines and keeping our staff safe. We will also do our very best to continue to support our overseas customers where possible, whilst the world unites to fight the COVID-19 outbreak.

If you should be struggling at the moment to obtain refractories from your usual suppliers during this crisis, we would like you to know that we are here to help and ready to manufacture or source anything you may need.

If you don't see the product or service listed on our website, please send us your specification or requirements we may develop and manufacture, source or match these products for you through our many partners.

In the meantime, here is a sample list of just some of the products we can support you on in these challenging times.

**Refractories | Precast | Electric Arc Furnace Roofs & Deltas | Tundish Linings | Tundish Lids  
Economiser Rings | Ladle Linings for Foundries | EAF Launderers | Dams & Weirs | Striker Pads  
Wellblocks | Pre Heater Lids | VOD/VAD | Monolithics | Conventional Castables - TRENTCAST
